

Department of
Taxation

Department Accepting Electronic Motor Fuel Files for Testing

The Department of Taxation is currently conducting testing of the new motor fuel tax system, which will begin accepting electronic returns and payments this fall. The Department invites all filers to send their formatted electronic files (EDI) using the new XML or ASCII format to the Department for testing when possible. The new format is available on our website at http://www.tax.ohio.gov/excise/motor_fuel.aspx. Please send any and all test files to Matt Long, supervisor in the Excise & Energy Tax Division, at matthew.long@tax.state.oh.us. Please contact the Department at 888.466.3921 with any question regarding the excise and energy taxes.
