Wholesaler Cigarette Tax Stamp Training

To all Ohio Stamping Wholesalers:

The Excise & Energy Tax Division has implemented a new, inter-active cigarette tax stamp system to handle purchases, invoicing, payments, notification and inventory control of the Ohio cigarette tax stamps.

We will be conducting webinar training sessions of approximately one hour for stamping wholesalers and their employees; please see the list below for available dates and times. The person(s) responsible for ordering your Ohio cigarette tax stamps and/or paying the invoices should register for one of these training sessions by clicking on the link below. Key topics that will be covered during the training include, but are not limited to, accessing your account in the web portal, navigation of your account throughout the portal, placing a stamp order, viewing an invoice, paying an invoice using ACH debit and viewing notifications. Individuals from the Excise & Energy Tax Tobacco Unit will be available after the webinar to answer any questions.

Please have your staff member(s) responsible for placing Ohio cigarette tax stamp orders and/or paying Ohio cigarette tax stamp invoices follow the link below to access the registration page for the webinar session that best fits their schedule.
