

Test Your Tax Knowledge: Quiz
Topic 5: W-2's and 1099's Explained

1. If you lose your W2's, who do you contact for replacements?
2. If you discover an error on a tax return that has already been filed, what form do you complete to make the correction?
3. You live and work in Lancaster, Ohio. You know you live in a taxing school district, but your employer informed you that they never withheld school district taxes from your pay. Upon receiving your W2 in the mail, you notice at the bottom there is a tax amount paid to LANCASTER noted in boxes 19 and 20. Should you assume your employer was mistaken when they said they do not withhold for school district income tax and claim this amount paid on your school district return form?
