¹ "Qualified property" means tangible personal property delivered to a qualified distribution center that is shipped to a qualified distribution center solely for further shipping by the qualified distribution center to another location in this state or elsewhere or in the case of gold, silver, platinum, or palladium delivered to a refining facility solely for refining to a grade and fineness acceptable for delivery to a registered commodities exchange. "Further shipping" includes storing and repackaging such property into smaller or larger bundles, so long as such property is not subject to further manufacturing or processing. "Refining" is limited to extracting impurities from gold, silver, platinum, or palladium through smelting or some other process at a refining facility. See R.C. 5751.01(F)(2)(z)(i)(II). Examples of receipts that are excluded from the definition of qualified property (i.e., not subject to any reduction by using the Ohio delivery percentage) are shipments of property to be used or consumed at the qualified distribution center location (e.g., shelving) and any services provided to the qualified distribution center.
