

**Department of  
Taxation**

## **Important Note**

Today, besides Adobe Reader, there are a number of applications that allow you to view PDF documents. Examples include the PDF readers integrated with Chrome and Firefox browsers, Foxit and apps for the iPad and Android tablets.

The Ohio Department of Taxation has designed and tested the IT 1040, IT 1040EZ and SD 100 PDF fill-in tax forms to ensure that a 2014 tax return can be completed using common PDF document applications.

To ensure timely processing of your returns, please do not reduce the size of, rotate or center your return when printing.

Notes regarding tablets and mobile devices:

1. Screen presentation issues have been observed, but do not seem to impact the completion of the tax return.
2. Please ensure that your device has the latest version of Adobe Reader. If you experience stability issues, complete the tax return on a Windows PC or print the form and manually complete the return.

If you encounter issues, please try the following:

1. Save the file to your local hard drive/device.
2. Ensure that you have the latest version of Adobe Reader for your device.
3. If using a tablet/mobile device, open the file on a Windows PC with Adobe Reader or Adobe Pro version 11.
4. Adobe Reader is available for free, and you can download it at:

<http://www.adobe.com/go/getreader>

Thank you
