Business/Non-Business Income

- Allocable vs. Apportionable Income
 - Business Income is Apportioned per R.C. 5747.21
 - Non-Business Income is Allocated per R.C. 5747.20
- How is income allocated or apportioned?
 - Performed on the Universal IT-1040 in calculating their resident or nonresident credit & their business income deduction

Business Income

“Business Income” means income, including gain/loss...

- Arising from transactions, activities, & sources in the regular course of a trade or business, (“Transactional Test”).
- From real, tangible, and intangible property if the acquisition, rental, management, and disposition of the property constitute integral parts of the regular course of a trade or business operation, (“Functional Test”).
- From a partial or complete liquidation of a business, including, but not limited to, gain or loss from the sale or other disposition of goodwill. (*Post-Kemppe*
3 Language)

Business Income

Kemppel v. Zaino, 91 Ohio St.3d 420 (2001)

- The Ohio Supreme Court recognized, without explicitly adopting, both tests:
 - **Transactional Test:** looks to the nature, frequency, and regularity of the transaction.
 - **Functional Test:** Was the property an integral part of the business? Did the property contribute to business income in the past?

Non-Business Income

“Nonbusiness Income” means all income that is not business income...

- And may include, but is not limited to:
 - Compensation
 - Rents, royalties from real or tangible property
 - Capital gains
 - Interest
 - Dividends and distributions
 - Patent, copyright royalties

2013 – 2014 Business Income Deduction
