**TABLES CF-1, 2, 3, 4, & 5**  
**Nos. 42-51 (2008)**  
**August 7, 2008**

**CF-1A, 1B, 2A, & 2B: CORPORATION FRANCHISE TAX**  
**Number of Corporations and Reported Tax Liability by Tax Base, Tax Year 2007**

Tax year 2007 is the second year of a five-year phase-out of the corporate franchise tax for most corporations. The phase-out was enacted in 2005 under landmark Ohio tax reform legislation (Am. Sub. House Bill 66, 126th General Assembly). For most corporations, there will be no franchise tax beginning in tax year 2010. However, the following types of corporations will continue to be subject to the franchise tax: banks and other financial institutions (who remain subject to the 13-mill net worth tax reflected in Table CF-5); certain affiliates of financial institutions that are engaged in financial institution-related activities; certain affiliates of insurance companies that are engaged in insurance-type activities; and securitization companies.

In tax year 2007, corporations computed their regular corporation franchise tax liability, and then reduced such liability by any allowable nonrefundable credits (excluding the pass-through entity tax credit); the resulting net tax liability was then reduced by 40 percent. The pass-through entity tax credit, refundable tax credits, and manufacturing grant were taken against this amount to yield final tax liability.

The attached tables show a total reported post-40 percent phase-out tax liability, net of tax credits and the manufacturing grant, of \$795.5 million. A total of 90,340 corporations were represented on the 2007 returns, with 19,990 corporations paying the tax based on net income and 25,192 paying the tax based on net worth. The number of corporations paying the \$50 or \$1,000 minimum tax amounted to 45,158. However, 85 percent of the tax liability before phase-out, credits, and grants, was based on net income (compared to 87 percent in 2006) and 14 percent was derived from the net worth base (compared to 16 percent in 2006). The remainder of the tax was reported as liability under the minimum tax.

Tables CF-1A and 1B show the number of corporations and the reported total tax liabilities by tax base for each of 19 broad industrial classifications. The largest total tax liability after phase-out, credits, and grants, was reported by manufacturing corporations, which accounted for 36 percent of the total.

Tables CF-2A and 2B categorize the corporate returns by the size of the reported tax liability per return. The number of corporations and total tax liability are shown for each of the alternative tax bases for 18 tax liability classes.

Returns reporting over \$500,000 in tax liability were responsible for approximately 57 percent of the total reported liability, even though they covered less than one percent of total corporations.

The data shown on these tables were compiled from returns filed for tax year 2007 with the Ohio Department of Taxation.

NOTE: These tables do not include data from the tax returns of financial institutions. Data from financial institution returns are shown on a separate table (CF-5).

**CF-3A, 3B, 4A & 4B: CORPORATION FRANCHISE TAX**  
**Number of Manufacturing Corporations and Reported Tax Liability by Tax Base, Tax Year 2007**

These tables show, for 11,295 manufacturing corporations, the total reported post-40 percent phase-out tax liability, net of tax credits and the manufacturing grant, amounted to \$277.0 million. Approximately 85 percent of the manufacturing tax liability was based on net income while 14 percent was paid on the net worth base. The remaining liability was collected from the minimum tax.

Tables CF-3A and 3B show the number of corporations and the reported total tax liabilities by tax base for each of the manufacturing categories.

Tables CF-4A and 4B show the manufacturing returns by the size of the reported tax liability per return. The number of corporations and total tax liability are shown for each of the alternative tax bases for 18 tax liability classes.

The data shown on these tables were compiled from returns filed for tax year 2007 with the Ohio Department of Taxation.

## **CF-5: CORPORATION FRANCHISE TAX**

### **Number of Financial Institutions and Reported Tax Liability by Type of Institution, Tax Year 2007**

This table shows a total tax year 2007 corporate franchise tax liability (before credits) for financial institutions of \$159.7 million, a decrease of 2.9 percent from tax year 2006. Banks, while making up approximately 65 percent of the total number of financial institutions, reported tax liability of \$116.9 million, or 73 percent of the total liability. Savings institutions, making up 25 percent of the total number of financial institutions, reported tax liability of \$37.0 million, or approximately 23 percent of the total liability. The remaining \$5.8 million of tax liability was reported by other types of financial institutions.

Financial institutions are not required to compute their tax liabilities on the two alternative tax bases (net income and net worth) applied to other corporations. Financial institutions are subject to a tax on net worth only, but at a rate of 13.0 mills rather than 4.0 mills for other corporations.

## **CF - CREDITS: CORPORATION FRANCHISE TAX**

### **Refundable and Nonrefundable Tax Credits Claimed, Tax Year 2007**

The CF-Credits table is a supplement to the CF1-5 tax data series. It provides detail on the tax credits claimed by general (non-financial institution) corporate franchise taxpayers. Both refundable and nonrefundable credits are shown in the table, as is the manufacturing grant. Values are shown on both a pre phase-out factor and a post phase-out factor basis.

The nonrefundable tax credits shown include the coal credit for electric companies, the job training credit, the research credit, the small telephone company credit, and other miscellaneous credits (see the table for a complete list). There were 568 nonrefundable credits claimed amounting to \$40.7 million (after the phase-out factor).

The job creation tax credit was the only prominent refundable credit in tax year 2007; there were 198 corporate franchise taxpayers claiming this credit, amounting to \$42.0 million.

Lastly, there were 544 corporate franchise taxpayers claiming the nonrefundable manufacturing grant amounting to \$5.1 million.

The data shown on these tables were compiled from returns filed for tax year 2007 with the Ohio Department of Taxation.

NOTE: House Bill 66 (126th General Assembly) phases out the corporate franchise tax for most taxpayers by 20 percentage-point annual increments over a five-year period beginning in tax year 2006. Except for the last two columns, all amounts shown are prior to the 40% reduction in effect for tax year 2007.

(a) Combines Tier One of litter tax, which is paid by all corporations, and Tier Two of litter tax, which is paid only by "litter stream" corporations.

(b) Does not reflect nonrefundable credit for taxes paid by qualifying pass-through entities. In addition, refundable tax credits are not subject to the reduction factor.

	<u>Number of Taxpayers Claiming the Grant</u>	<u>Amount Claimed, Before 40% Phaseout Factor (f), (g)</u>	<u>Amount Claimed, After 40% Phaseout Factor (g)</u>
<b>Nonrefundable Manufacturing Grant</b>	544	\$8,504,046	\$5,102,428

- (a) Excludes the credit for taxes paid by a pass-through entity.
- (b) This column reflects the number of taxpayers using each credit. However, some taxpayers used more than one credit. A total of 714 taxpayers used one or more tax credits.
- (c) Nonrefundable credit amounts have been adjusted to reflect that the amount claimed may not exceed tax liability.
- (d) Comprised of the following credits:  
 Credit for qualifying affiliated groups;  
 Credit for recycling and litter prevention donations;  
 Credit for maintaining railroad crossing warning devices;  
 Credit for job retention;  
 Credit for eligible new employees in an enterprise zone;  
 Credit for eligible costs associated with a voluntary brownfield site clean-up action;  
 Credit for employers that establish an on-site daycare center;  
 Credit for an investment in an ethanol plant;  
 Credit for grape production property;  
 Credit for 9-1-1 telephone system;  
 Credit for programs to aid the communicatively impaired;  
 Technology investment (Edison center) tax credit;  
 Enterprise zone day-care and training credits; and  
 Research & development loan repayment credit.
- (e) The job creation tax credit is not subject to the phaseout factor.
- (f) Taxpayers claim a manufacturing grant net of the phaseout factor. This figure was computed for this table using each taxpayer's reported post-phaseout grant information.
- (g) Nonrefundable grant figures have been adjusted to reflect that the amount claimed may not exceed tax liability.
