

Business Tax Credits

A number of Ohio's business tax credits can be claimed against more than one type of tax. Rather than continue to list the same business tax credits in multiple chapters of this annual report, we have chosen to consolidate information about them here.

The tax credits available to Ohio businesses underwent significant reorganization with the 2005 enactment of House Bill 66, which phased out the corporation franchise tax for the vast majority of corporations after the 2009 report year.

For taxpayers subject to the corporation franchise tax phase-out and the phase-in of the commercial activity tax (CAT), the 2008 franchise tax reports (based on 2007 business activity) were the last on which the following credits could be applied:

- Job creation credit
- Job retention credit
- Research expense credit
- Research and development loan payment credit

After Jan. 1, 2008, these credits were automatically converted to credits against the CAT. However, these credits continue to apply against the franchise tax for taxpayers such as financial institutions, which are not subject to the CAT and remain subject to the franchise tax. In addition, a CAT credit for unused franchise tax net operating loss deductions was made available to qualifying corporations starting with the 2010 calendar year.

Other corporation franchise tax credits were neither repealed nor transitioned to the CAT. These will be claimed infrequently (if at all) in the future because the franchise tax is now limited to a relatively small number of corporations, primarily financial institutions. However, there are exceptions. For example, the refundable historic building preservation and motion picture tax credits may still be claimed against the corporation franchise tax by corporations that are no longer subject to the franchise tax. In such situations, the franchise tax becomes, in effect, a vehicle for delivering the incentive.

Credits

Alternative fuel credit (Ohio Revised Code 5733.48, 5747.77)

This nonrefundable credit was originally scheduled to expire after the 2009 taxable year, but was extended for two years by Senate Bill 131 (see **Recent Legislation**, below). Retail service station owners may claim a 15 cent per gallon credit against individual income tax liability for most alternative fuels sold during the 2010 and 2011 taxable years. For blends with less than 20 percent biodiesel, smaller credits apply: 7½ cents per gallon for blends of between 10 percent

and 20 percent biodiesel and 3¼ cents per gallon for blends of between 6 percent and 10 percent biodiesel. There is no carryforward of the credit into future years.

A similar credit was once also permitted against the corporation franchise tax, but that version of the credit was not extended beyond 2009.

An "eligible employee" is a new employee at the facility to which the enterprise zone agreement applies, who at the time hired was a recipient of aid through the Ohio Works First program (Temporary Assistance to Needy Families) or general assistance and who resided for at least one year in the county in which the facility is located.

As revised, the Ohio Tax Credit Authority may award taxpayers a refundable credit for new jobs created according to an agreement per R.C. 122.17. The credit equals a designated percentage of the additional Ohio income tax withheld from a site over a baseline amount intended to represent the amount of withholding taking place before the job creation agreement. The exact percentage of the credit is established by agreement between the taxpayer and the Tax Credit Authority. The credit is permitted for a period of up to 15 years.

Job retention credit (R.C. 122.171, 5733.0610(B), 5747.058(B), 5751.50)

This credit saw significant changes effective Oct. 16, 2009 as a result of House Bill 1; for more information see **Recent Legislation**, below. As revised, the Ohio Tax Credit Authority may award this nonrefundable credit to businesses that invest at least \$50 million in fixed-assets for manufacturing operations or at least \$20 million in fixed-assets for significant corporate administrative functions. In exchange for the credit, employers must commit to retain at least the equivalent of 500 full-time employees at the site for at least seven years or the term of the credit plus three years, whichever is greater. The size of the credit, determined by agreement with the Ohio Tax Credit Authority, equals up to 75 percent of the Ohio individual income tax withheld from the wages or salary paid to employees retained at the site. The credit is normally limited to a term of ten years, but may be granted for up to 15 years in cases where the total amount of annual payroll to be retained is at least \$40 million.

Taxes: Commercial activity (beginning in 2008), corporation franchise (limited to franchise taxpayers only, starting with the 2008 taxable year), individual income (before 2008) or insurance taxes (for job retention agreements reached after Oct. 16, 2009).

These nonrefundable grants (previously credits) applied to purchases of new manufacturing machinery and equipment made on or before June 30, 2005. The grants equaled either 7.5 percent of the amount by which the cost of qualifying equipment exceeded the taxpayer's "base investment" for a particular county or 13.5 percent for investments made in certain "priority investment areas" with high unemployment or poverty. One-seventh of this grant could be claimed in each of the seven tax years following the purchase year. Also, manufacturers were permitted to carry forward any unused credit for up to 3 years.

For taxpayers subject to the franchise tax phase-out, the grant ended with the final (2009) franchise tax report. For individual income tax filers, the incentive can be taken against the state income tax until the term of the incentive is completed. Including carry forwards, this could be as late as 2015.

The value of each credit may not exceed \$5 million per production, and the total credits to be issued are capped at \$10 million for fiscal year 2010 and \$20 million for fiscal year 2011. Recent Legislation

House Bill 1, 128th General Assembly (FY 2010-2011 biennium budget bill; budget provisions were effective July 17, 2009, other provisions were effective Oct. 16, 2009 or on other dates)

H.B. 1 included the following changes:

Job creation credit –The act amended R.C. 122.17 to change the formula for computing this credit. For agreements entered into on or after the Oct. 16, 2009 effective date of the amendment, the credit is computed as a percentage of the growth in income tax withholding at the project site over the baseline withholding for that year. Specifically:

- The credit is to be computed as a percentage (as identified in the agreement between the taxpayer and the tax credit authority) of the amount by which income tax withheld from employees at the project site during the taxable year exceeds the taxpayer's baseline withholding at the project site for that taxable year.
- Withholding includes the sum of Ohio income tax withheld from all employees at the project site during the taxable year regardless of whether the employee is a "new" employee and regardless of whether the employee is a full-time employee.

Job retention credit –The act amended R.C. 122.171 to revise the calculation of this credit. For job retention credit agreements entered into on or after the new law's Oct. 16, 2009 effective date, the credit is computed as a percentage of the sum of Ohio income tax withheld from all employees at the project site whose hours of compensation are included in calculating the number of "full-time equivalent employees" regardless of whether the employee is full-time or part-time. Under prior law the credit was computed only with respect to Ohio income tax withheld from full-time employees at the project site.

In addition, H.B. 1:

- Allows insurance companies to claim the credit against the premiums tax.
- Limits the aggregate value of job retention credits that the authority can issue during any calendar year.
- Reduced the minimum employee and minimum investment thresholds and other requirements for project eligibility.

Historic building preservation credit –The act amended R.C. 5733.47 and 5747.76 to specifically provide that if a pass-through entity is awarded a historic preservation tax credit certificate by the Ohio Department of Development for that entity's "qualified rehabilitation expenditures," the entity can allocate the credit among its equity owners in proportion to their ownership interests or in such proportions or amounts as the equity owners mutually agree. The new law applies to

credits claimed based on certificates issued in taxable years ending on or after Oct. 16, 2009. (See section 803.20 of the bill.)

Motion picture production credit –The act created the motion picture production credit by creating R. C. 122.85, 5733.59 and 5747.66 and enacting sections 701.90 and 812.20 of the bill.

Technology investment tax credit –The act amended R.C. 122.151 to increase the aggregate value of technology investment credits that may be issued from \$30 million to \$45 million.

New markets tax credit –The act created the new markets tax credit by enacting R.C. 5725.33 and 5733.58. This new credit is similar to the federal new markets credit. However, the Ohio new markets credit is available only to financial institutions and insurance companies.

Senate Bill 131, 128th General Assembly, effective May 31, 2010

Alternative fuel credit –The bill amended R.C. 5747.77 to permit, against the individual income tax, a nonrefundable credit of 15 cents per gallon for most alternative fuels sold during the 2010 and 2011 taxable years. Previously, the credit was scheduled to expire after the 2009 taxable year. The bill also expanded the definition of “blended biodiesel” to include fuels with as little as 6 percent biodiesel. Previously “blended biodiesel” needed to contain at least 20 percent biodiesel. The bill also made credits of lesser value available for biodiesel blends of between 6 percent and 20 percent.
