

Corporation Franchise Tax

Taxpayer

Domestic and foreign corporations doing business in Ohio, owning capital or property in Ohio, holding a charter or certificate of compliance authorizing the corporation to do business in Ohio, or otherwise having nexus with Ohio during the calendar year (unless specifically exempt).

Tax Base

The corporation franchise tax is an excise tax levied on the value of a corporation's issued and outstanding shares of stock. There are two bases for determining the value of a corporation's issued and outstanding shares: the net income base and the net worth base. A taxpayer pays tax on that base, described below, that produces the greater tax.

1. **Ohio Net Worth Base (taxable value):** Net book value of assets less net carrying value of liabilities yields net worth. The net book value of exempted assets is subtracted from net worth, and any "qualifying amount" as reflected on the books of the corporation is added to net worth, thus yielding the net value of the stock. This amount is multiplied by the Ohio apportionment ratio to yield taxable net worth.
2. **Ohio Net Income Base (Ohio taxable income):** The computation begins with federal taxable income, plus or minus any Ohio adjustments. From this tax base, business income is apportioned to Ohio by the Ohio apportionment ratio, and nonbusiness income is allocated in and outside Ohio based upon certain siting provisions. For taxable years ending prior to June 26, 2003, Ohio law made no distinction between business income and nonbusiness income. The total income allocated and apportioned to Ohio, plus certain additions and minus certain deductions, yields Ohio taxable income.

The Ohio apportionment ratio is the sum of the property factor (the ratio of property in Ohio to property everywhere, times 20%), the payroll factor (the ratio of payroll in Ohio to payroll everywhere, times 20%), and the sales factor (the ratio of sales in Ohio to sales everywhere, times 60%).

Net income base apportionment:

For taxable years ending on or after June 26, 2003 the net income base property, payroll, and sales factors specifically exclude that portion of property, payroll, and sales otherwise includable in the factors to the extent that the portion relates to, or is used in connection with, production of nonbusiness income allocable under

Corporation Franchise Tax

Ohio Revised Code section 5733.051 (see R.C. 5733.05(B)(2) as amended by Amended Substitute House Bill 95, 125th General Assembly). For example, real property generating allocable nonbusiness rental income is excluded from the denominator of the property factor, and if the property is in Ohio, that property is excluded from both the numerator and the denominator of the property factor.

A market-theory approach is implemented in taxable years ending on or after December 11, 2003 for sales other than inventory sales of tangible personal property and real estate. The receipts from such sales are generally situated to Ohio in proportion to the purchaser's benefit, with respect to the sale, in Ohio, to the purchaser's benefit, with respect to the sale, everywhere.

Net worth base apportionment:

For taxable years ending on or after June 26, 2003 the numerator and denominator of the net income base property, payroll, and sales factors are adjusted to include the portion of any real property and tangible personal property, payroll, and sales, respectively, relating to, or used in connection with, production of nonbusiness income allocated under R.C. 5733.051 (see R.C. 5733.05(C)(2)). For example, real property generating nonbusiness rental income allocated to Ohio is excluded from both the numerator and denominator of the net income base property factor, but the net worth base apportionment property factor is adjusted to include such property.

Rates

General Rate (excluding financial institutions):

1. 4.00 mills on Ohio net worth. The maximum tax for each taxpayer on the net worth base is \$150,000.
2. 5.1% on the first \$50,000 of Ohio net income plus 8.5% on Ohio net income in excess of \$50,000. (Corporations that meet ownership requirements to file a combined report must share the tax bracket to which the 5.1% rate applies, regardless of whether or not the corporations filed combined.)

The minimum fee is \$50 for taxpayers having a taxable year ending on or before June 25, 2003. For taxable years ending on or after June 26, 2003, the minimum fee increased to \$1,000 if (a) the sum of the taxpayer's gross receipts from its activities in and outside Ohio during the year equals or exceeds

Corporation Franchise Tax

\$5.0 million or (b) the total number of its employees in and outside Ohio at any time during the year equals or exceeds 300. For all other taxpayers the minimum fee remains \$50.

In addition, corporations are subject to an additional litter tax. Each corporation is subject to the Tier I litter tax, and “litter stream” corporations are also subject to the Tier II litter tax.

Financial institutions rate:

13 mills on net worth, but the \$150,000 net worth tax limit does not apply.

The minimum fee is \$50 for taxpayers having a taxable year ending on or before June 25, 2003. Effective for taxable years ending on or after June 26, 2003, the minimum fee increased to \$1,000 if (a) the sum of the taxpayer’s gross receipts from its activities in and outside Ohio during the taxable year equals or exceeds \$5.0 million or (b) the total number of its employees in and outside Ohio at any time during the taxable year equals or exceeds 300. For all other taxpayers the minimum fee remains \$50. (Neither the net income base nor the litter tax applies to financial institutions.)

Major Exemptions

- Nonprofit corporations.
- Dealers in intangibles (stockbrokers, mortgage companies, etc.).
- Insurance companies, HMO’s, and other corporations required to file annual reports with the Director of the Ohio Department of Insurance.
- Public utilities (except railroads, electric companies, long distance telephone companies, and beginning in 2005 all telephone companies).
- Credit unions.
- “S” corporations and qualified subchapter S subsidiaries (QSSS).
- Real Estate Investment Trusts (REIT), Regulated Investment Companies (RIC), and Real Estate Mortgage Investment Conduits (REMIC).
- Corporations in bankruptcy proceedings under Chapter 7 of the U.S. Bankruptcy Code.
- Corporations exempt under federal law.
- High-technology start-up companies are exempt from the net worth base. Subject to certain limitations, a corporation that is organized not more than three years prior to March 31 of

Corporation Franchise Tax

any tax year during the 2003-2007 period is not subject to the net worth base of the franchise and litter taxes during such tax year. (Such corporations are subject to the net income base of the franchise and litter taxes.)

- Qualifying holding companies are exempt from the net worth base.

Revenue (In Millions)

Fiscal Year	General Rev. Fund	Local Gov't. Funds	Other Funds(1)	Total
2000	\$969.4	\$48.9	\$11.6	\$1,029.9
2001	915.3	46.1	11.6	973.0
2002	712.3	48.8	13.3	774.4
2003	747.2	47.5	13.6	808.3
2004	809.1	47.5	14.0	870.6

Note: (1) Includes litter funds, and Attorney General Claims Fund.

Disposition of Revenue

After making any required deposits in the Attorney General Claims Fund, 95.2% of remaining revenue is deposited in the General Revenue Fund, 4.2% is deposited in the Local Government Fund, and 0.6% is deposited in the Local Government Revenue Assistance Fund.

For fiscal years 2002 and 2003, the two local government funds were frozen and each received the same amount of corporation franchise tax revenue as they received in Fiscal Year 2001. The remainder was deposited in the General Revenue Fund. This freeze was continued in fiscal years 2004 and 2005. Refer to **Disposition of Revenue** in the **Individual Income Tax** section for information on the semi-annual reduction of the Local Government Fund and Local Government Revenue Assistance Fund deposits.

Payment Dates

January 31:	1/3 of tax liability.
March 31:	1/3 of tax liability.
May 31:	1/3 of tax liability.

Special Provisions/Credits

A nonrefundable credit is provided for cash donations made to municipal corporations, townships, counties, park districts, and boards of education that have received litter control and

Corporation Franchise Tax

recycling grants. The credit is limited to the lesser of one-half of the cash donation or one-half of the sum of the litter taxes paid by the taxpayer.

A nonrefundable credit is provided to state-chartered savings and loan institutions for the difference between the annual assessment paid to the state division of savings and loans and the supervisory fees paid to the federal savings and loan insurance corporation.

A nonrefundable credit is available equal to the taxpayer's proportionate share of the 8.5% tax paid by a pass-through entity in which the taxpayer is directly or indirectly a qualifying investor.

In determining Ohio taxable income, a corporation claiming the pass-through entity credit must add to federal taxable income the amount claimed as a credit to the extent that the amount was deducted or excluded from the corporation's federal taxable income.

In addition to other applicable credits, corporations located in an "enterprise zone" may qualify for three nonrefundable credits:

- Credit for amount reimbursed to certain employees for day care costs — maximum of \$300 per child.
- Credit for amount reimbursed to certain employees for job training costs — maximum of \$1,000 per employee.
- Credit for each new employee hired who had been a participant in the Ohio Works program, the prevention, retention, and contingency program, or the former general assistance program — \$1,000 per employee.

A nonrefundable credit may be taken for manufacturing machinery and equipment purchased between July 1, 1995 and December 31, 2015 and located in Ohio. The credit is 7.5% of the amount by which the cost of the qualifying equipment purchased during the qualifying period for use in an Ohio county exceeds the "base investment" for that county. For equipment that is located in certain eligible areas (areas classified as inner city, distressed, labor surplus, or in situational distress), the credit is 13.5% rather than 7.5%.

A nonrefundable credit may be claimed by grape producers

Corporation Franchise Tax

equal to 10% of the cost of property used in growing, harvesting or producing grapes in Ohio.

A nonrefundable credit may be granted to investors who make qualified investments in qualifying small Ohio-based research and development or technology transfer companies. The credit is 25% of the amount of capital invested by the taxpayer in the qualifying company.

A nonrefundable credit is provided equal to one-half of the average annual costs for an eligible job training program, subject to a maximum of \$1,000 per trained employee and a \$100,000 maximum per taxpayer.

A nonrefundable credit is available equal to 7.0% of the excess of qualified research expenses incurred during the taxable year over the average annual qualified research expenses incurred during the three preceding taxable years.

A nonrefundable credit is available to an affiliated group if the group pays over \$3.5 million in additional tax as a result of the related entity and related member adjustments. The credit is equal to the additional tax in excess of \$3.5 million but may not exceed \$1.5 million.

A nonrefundable credit is provided to railroad companies equal to 10% of their total maintenance expenditures during the taxable year for each grade crossing warning device in this state. But the credit for each device may not exceed \$200 per year.

A nonrefundable credit may be granted by the Director of the Ohio Department of Development equal to 10% of a company's costs incurred in completing a voluntary clean-up of a contaminated site (not to exceed \$500,000).

A nonrefundable credit is available to electric companies equal to \$3.0 per ton of Ohio coal used in a coal-fired electric generating unit (scheduled to end December 31, 2004; this credit was extended to December 31, 2007 at \$1.0 per ton).

A nonrefundable credit is available beginning in tax year 2004 equal to a borrower's qualified research and development loan payments during the calendar year immediately preceding the

Corporation Franchise Tax

tax year. These payments represent principal and interest on a loan made to the borrower from the research and development fund administered by the Ohio Department of Development.

A nonrefundable credit is available beginning in tax year 2007 to Ohio Venture Capital Program lenders and investors to provide some security against losses on loans to the program.

Telephone companies may be entitled to one or more of the following credits for:

- small telephone companies;
- eligible nonrecurring 9-1-1 charges; and
- providing programs to aid the communicatively impaired.

Financial institutions are subject to a franchise tax net worth base that differs from the net worth base of general corporations. Financial institutions are also subject to a different apportionment formula than that used for general corporations.

A corporation that dissolves or surrenders its license to conduct business prior to January 1 of the tax year, while not subject to the franchise tax, is subject to an “exit tax” on its unreported Ohio net income (income not previously included in a franchise tax report). Under certain circumstances the income of a transferor corporation no longer subject to the franchise tax is attributed to a transferee corporation that received substantially all of the transferor corporation’s assets.

Under certain circumstances a taxpayer must add to its income certain gains and losses that were included in the federal taxable income of a related entity that is not an Ohio taxpayer. Interest expense and intangible expense paid to related members are also added to a taxpayer’s net income.

If a taxpayer is a related member to a qualifying holding company, the taxpayer must adjust its net worth and debt by the “qualifying amount.” The qualifying amount is an amount that results in the taxpayer’s debt-to-equity ratio equaling the debt-to-equity ratio of the qualifying controlled group of which the taxpayer is a member.

 - Sales factor amendments enacted that implemented a market-theory approach for sales other than inventory sales of tangible personal property and real estate.
- 2004
- Local telephone companies subjected to tax beginning in tax year 2005. Tax year 2005 liability, for companies with a taxable year ending in 2004, was computed by multiplying by 50% the tax otherwise due, net of all nonrefundable credits; companies also required to compute the net operating loss carried forward from tax year 2005 to a future year by multiplying by 50% the net operating loss otherwise computed for the taxable year ending in 2004.
 - Apportionment method of net income base changed for sales factor ratio of income from sales of services and certain intangibles; such sales were situated to the location where the benefit of the sale is received.

Comparisons with Other States (As of 01/05)

California

8.84% of net income.

Florida

5.5% of net income. Corporations subject to federal alternative minimum tax pay equal to the greater of the regular 5.5% net income tax or 3.3% alternative minimum tax. Taxpayers are also subject to excise tax of 2.2% on the adjusted value of the federal Accelerated Cost Recovery System (ACRS) depreciation allowance.

Illinois

4.8% of net income. Taxpayers are also subject to 2.5% personal property replacement tax on net income and 0.1% franchise tax on paid-in capital.

Indiana

8.5% of adjusted gross income. 5.0% of adjusted gross income derived from sources within a qualified area that contains an inactive or closed military base.

Corporation Franchise Tax

Kentucky

Taxpayers pay tax based on the greater of the taxable net income calculation, the alternative minimum calculation, or the minimum tax of \$175. Tax on net income is imposed at the following rates:

Taxable Net Income	Rate
Up to — \$50,000	4.00%
\$50,001 — 100,000	5.00
Over — 100,000	7.00

The alternative minimum tax calculation is equal to the lesser of \$0.095 per \$100 of gross receipts or \$0.75 per \$100 of the taxpayer's Kentucky gross profits.

Massachusetts

Corporations pay a tax based in part on each of the following:

- 0.26% on taxable tangible property that is not subject to local taxation or on allocated net worth, plus a 14% surtax; and
- 9.5% of taxable net income plus a surtax of 14% with a minimum tax of \$456 (\$400 base rate, plus a surtax of 14% of the net tax paid).

Michigan

Adjusted tax base includes business income, compensation paid to employees, interest payments, and depreciation of tangible assets. For taxpayers with a fiscal year ending in December, the tax year 2005 rate is 1.9%.

New Jersey

For tax year 2005, corporations pay the greater of the following:

- a minimum tax of \$500 (\$2,000 if annual payroll is at least \$5.0 million); or
- a tax of 9.0% if the corporation's entire net income exceeds \$100,000, 7.5% if the corporation's entire net income is \$50,001 to \$100,000, or 6.5% if the corporation's entire net income is \$50,000 or below.

New York

8.85% of allocated entire net income, 0.15% of allocated business and investment capital (not to exceed \$350,000), 8.85% of modified net income or \$300, whichever is greatest, plus 0.75% of allocated subsidiary capital.

Corporation Franchise Tax

Pennsylvania

9.99% of net income plus 0.599% of taxable value of capital stock.

Texas

The greater of 0.25% on net taxable capital or 4.5% on net taxable earned surplus.

West Virginia

9.0% of net income plus additional franchise tax equal to \$50 or 0.75% of the value of the taxpayer's capital, whichever is greater.
