- Gross receipts from interstate business, sales to other public utilities for resale, sales of merchandise, and business done with the federal government.

Public Utility Excise Tax

For fiscal years 2002 and 2003, the two local government funds were frozen and each received the same amount of public utility excise tax revenue as they received in Fiscal Year 2001. The remainder was deposited in the General Revenue Fund. This freeze on local government funds was continued in fiscal years 2004 and 2005. Refer to **Disposition of Revenue** in the **Individual Income Tax** section for information on the semi-annual reduction of the Local Government Fund, Local Government Revenue Assistance Fund, and Library and Local Government Support Fund deposits.

Payment Dates

Advance payments are required of all public utilities, except natural gas companies, for which tax liability exceeded \$1,000 during the previous tax year. Payments equal to one-third of the previous tax year's liability are due on October 15, March 1, and June 1. Final payment of remaining balance, based on the current year's certification in November, is due within 30 days of billing.

Each natural gas company whose annual liability equals or exceeds \$325,000 must pay on a quarterly basis. Payment dates are the 45th day following the last day of March, June, September, and December. Those with annual liability less than \$325,000 can pay annually in February.

Special Provisions/Credits

Local telephone companies receive a credit for non-recurring costs associated with the installation of a 9-1-1 system in a county.

Qualifying natural gas companies may receive a refundable quarterly credit, beginning with the November, 2001 payment, for estimated tax payments made in October, 1999; March, 2000; and June, 2000. This credit expires when the amount of the estimated payments are made up in credits, or in 15 years.
