

LOCAL TAXES
LODGING TAX

Taxpayer

Operators of hotels, motels, rooming houses, and other facilities providing lodging accommodations for transient guests.

Tax Base

All transactions by which lodging in a hotel, motel, rooming house, and other lodging accommodations are furnished to transient guests. These transactions are also subject to sales tax.

Rates

The maximum combined tax rate permitted in most locations is 6.0%. However, due to the enactment of special lodging taxes in some jurisdictions, the maximum combined tax rate sometimes exceeds 6.0%.

The highest combined tax rates imposed in counties with a special lodging tax (as of December 31, 2005) are: Cuyahoga (7.5%), Fairfield (7.5%), Franklin (10.0%), Guernsey (9.0%), Hamilton (10.5%), Lucas (8.0%, except in Monclova Township where a total 11.0% tax is imposed), Muskingum (8.0%), and Summit (7.5%).

In 2005, the most recent year for which data is available, 60 counties, 125 townships, and 166 municipalities (129 cities and 37 villages) levied a lodging tax. Excluding those counties listed above, rates ranged from 1.0% to 6.0%, but over 80% were at 3.0%.

Counties:

Under a 1980 law, counties may enact a tax of up to 3.0% to be levied only in those municipalities or townships which have not already enacted a tax authorized by the 1980 law.

In addition, various special county lodging taxes have been authorized under state law. Most of these special county lodging taxes could only be adopted by a board of county commissioners during a limited time period. Furthermore, revenue produced from these county taxes could be used only for specified purposes (not for the county general fund). Most of the special county lodging taxes have been restricted to a narrow class of counties, such as counties meeting certain population levels and counties that already had an existing lodging tax imposed for specific purposes. (See **History of Major Changes** in this chapter for details.)

Municipalities and Townships:

Under a 1967 law, municipalities and townships are permitted to enact a lodging tax of up to 3.0%. Under a law enacted in 1980, municipalities and townships may also levy up to an additional 3.0% lodging tax (but only if the county in which the municipality or township is located has not already imposed a tax under the 1980 law). Therefore, with the sole exception described below, municipal and township lodging taxes have a maximum 6.0% rate.

In 2002, the most populous municipality located in an eligible county (i.e., a county imposing a maximum 3.5% lodging tax under a 2002 law to fund a convention center) could levy an additional maximum 1.0% lodging tax. This tax is to be used for funding the convention center. The total tax rate imposed by the one municipality levying this tax is 4.0%.

County Convention Facility Authorities (CFA):

CFAs were permitted to enact an additional lodging tax of up to 4.0% only during a designated six-month period of calendar year 1988 for financing a new convention or sports center. An additional 0.9% rate was allowed to be imposed as long as this tax and the municipal or township tax authorized by the 1967 law did not exceed 3.0%.

Under a 2005 law, CFAs located in certain Appalachian counties with populations less than 80,000 and which do not already levy a lodging tax were authorized, for a limited time, to enact a tax to pay the cost of constructing, equipping or operating a convention, entertainment or sports facility of up to 3.0%.

Disposition of Revenue

Under the lodging tax authorized in 1967, all tax collections are deposited in the general revenue fund of the municipality or township.

Under the lodging tax authorized in 1980, counties are required to return to municipalities and townships that do not levy any hotel/motel tax a uniform percentage (not to exceed 33 1/3%) of revenue generated within the municipality and township. The remainder of the revenue is to be deposited in a separate fund to be used for county convention and visitors bureau expenses.

Municipalities and townships are required to allocate at least one-half of the revenues from a lodging tax authorized in 1980 for convention and visitors bureaus located within the county. Remaining revenues are retained by the municipality or township and deposited into the local general revenue fund.

All revenue from a CFA lodging tax levy is for constructing, equipping, and operating a convention or sports center. Revenue from a special county or municipal lodging tax is to be used for the purpose designated for that tax levy in state law.

Payment Dates

Monthly or quarterly.

Special Provisions/Credits

Counties are authorized to enact a lodging tax of up to 3.0%, but if a municipality or township within the county already has the tax authorized by the 1980 law, those areas are not subject to the county tax.

Florida

Counties are authorized to enact an array of taxes on lodging: surtax on sleeping arrangements, tourism development taxes, tourist impact tax, and convention development taxes. The maximum rate in effect for any
