## Important Note

Today, besides Adobe Reader, there are a number of applications that allow you to view PDF documents. Examples include the PDF readers integrated with Chrome and Firefox browsers, Foxit and apps for the iPad and Android tablets. Unfortunately, these applications do not support the advanced features required to complete the IT 1040, IT 1040EZ and SD 100 PDF fill-in forms.

These forms have been tested using Internet Explorer with Adobe Reader version 9.3 and higher.

For Smartphone and Tablet users: Testing has found the Adobe Reader (tablet version) and other PDF reader apps for these devices do not support the features required by these forms.

To solve this issue, try the following:

1. Save the file to your local hard drive/device.
2. Whenever you work on the file, open the file in Adobe Reader or Adobe Pro, version 9.3 or higher.
3. Adobe Reader is available for free, and you can download it at:

Thank you.
