**REAL ESTATE TAXES:**

*Taxable Current Agricultural Use Value (CAUV) of Real Property, Taxable Value of Real Property before CAUV, and Number of CAUV Acres and Parcels, by County, Calendar Year 2010*

Under Chapter 5713 of the Ohio Revised Code, county auditors are required, upon application by landowners, to assess qualified agricultural property according to its current agricultural use value (CAUV). Only land used exclusively for agricultural purposes may be assessed in this manner. The Tax Commissioner is responsible for developing the specific rules and standards used by county auditors in assessing real property according to its current agricultural use value.

Table PD-32 shows the taxable value of qualifying agricultural real property both before CAUV determination - when the property is valued according to its highest and best use - and after CAUV determination. (Both of these measurements reflect property values after the imposition of the 35 percent assessment ratio.) Also, shown are the number of acres and parcels of property to which CAUV determination was applied by county for calendar year 2010.

In 2010, a total of 16.1 million acres were assessed at their current agricultural use value of \$3.6 billion as compared to the highest and best use value of \$15.8 billion, a reduction in assessed value of \$12.2 billion.

Taxable value of real property before CAUV determination ranged from a low of \$13.7 million in Cuyahoga County to a high of \$446.4 million in Darke County. Taxable real property value after CAUV determination ranged from \$1.9 million in Cuyahoga County to approximately \$104.3 million in Hancock County. The number of CAUV parcels varied from 191 in Cuyahoga County to 9,613 in Wood County, while the number of CAUV acres ranged from 2,242 in Cuyahoga County to 344,925 in Darke County.

The sources of these data are records of the Ohio Department of Taxation derived from current agricultural use value abstracts filed with the state by county auditors.
