Instructions for Completing Form

General Instructions

This form and the other information required by Ohio Department of Taxation DTE Bulletin 8 must be submitted to the tax commissioner and to the superintendent of public instruction for their consents, only if the percentage entered on line 8 exceeds 4.00%. File this form and the other required information with the commissioner and superintendent at least 120 days before the election at which the proposed issue will be submitted at the following addresses: Ohio Department of Taxation, Tax Equalization Division, 21st Floor, 30 East Broad Street, Columbus, Ohio 43215-3414 **AND** Ohio Department of Education, Office of School Finance, 25 South Front Street, Columbus, Ohio 43215-4183.

Line Instructions

Line 1 Enter total tax valuation from the real and public utility property tax list that was most recently certified for collection. See Bulletin 8 for a more detailed explanation of the exclusions from tax valuation and how to obtain them. Include tax valuations from all counties in which the school district is located. This total amount should agree with total on DTE form(s) 13 for that year, if available, and is not necessarily the same as that used by the county auditor to estimate the millage rate for the ballot.

Line 2 Enter total principal amount of outstanding securities of the school district, including any amount apportioned to the district and excluding any amount apportioned to another school district, as a result of the acquisition or loss of territory (§ 133.04(A)). Exclude any securities to be retired by the proposed issue (§ 133.34(D)). Always include classroom facilities securities, but note the instruction to line 8. Do not include any obligations of a lease-purchase or similar agreement (§§ 133.01(GG)(2), (KK) and 3313.375). **State amount of proposed issue and include it in the total.**

Line 3 Enter exempt securities on the appropriate lines. Enter other amounts on (t) and state Revised Code section(s).

Line 4 Enter total of lines 3(a) to 3(t).

Line 5 Subtract line 4 from line 2 and enter the difference here.

Line 6 Enter any bond retirement fund balance applicable to the principal of the securities in line 5.

Line 7 Subtract line 6 from line 5 and enter the difference here.

Line 8 Divide line 7 by line 1 and enter the quotient here as a percentage. If this percentage is greater than 4.00%, consents of the tax commissioner and the superintendent of public instruction are required to submit the issue to the vote of the electorate, **unless** the proposed issue is to raise the school district portion of the basic project cost and other required costs or certain optional costs of a classroom facilities project under Chapter 3318, in which case no consents are required for that issue (§ 133.06(I)). If this percentage is greater than 9.00%, the school district must also acquire the approval of the superintendent as a special needs district to place the proposed issue on the ballot, **unless** the proposed issue is to raise the school district portion of the basic project cost and other required costs or certain optional costs of a classroom facilities project under Chapter 3318, in which case lines 9 and 10 need not be completed (§ 133.06(I)). See Item 6 of Bulletin 8 for more details on the classroom facilities' excepted debt.

Line 9 Enter superintendent of public instruction's projected tax valuation under § 133.06(E)(4).

Line 10 Divide line 7 by line 9 and enter the quotient here as a percentage. If this percentage exceeds 12.00%, the commissioner and superintendent cannot consent to the submission of the proposed issue on the ballot.
